

## **International PhD student conference *MĚ100* (The City)**

We would like to invite you to the seventh edition of the student scientific conference on economy on the scale of a city or region.

### **The aim**

We open a topic that is seldom discussed in the context of spatial planning in central Europe. We would like to explore the connection between urban and regional planning and the economics. Since 2016 we invite every year academics from various universities and professionals in this field and moderate a discussion in an open forum with PhD students.

### **The concept**

The conference combines presentations of PhD students' work with conference papers of invited experts, allowing for a scholarly and scientific debate and engagement to occur. To this end, the organizers invite professionals that work outside of the academic sphere: municipal representatives, especially those in departments responsible for the budgets of towns and regions; representatives of banks involved in financing public construction projects; or experienced managers of private sector interested in co-operation between public and private sector.

### **Date and location of the venue**

The conference will take place on **December 1, 2023 in CAMP** (Vyšehradská 51, Prague 2, Czech Republic). The venue will be streamed (link at [www.me100.info](http://www.me100.info)).

### **The organizer**

Department of Spatial Planning, Czech Technical University in Prague, Faculty of Architecture

### **Who is going to participate**

This year's speakers include Clare Sheils, Director, CBRE, Stefano Wagner, Partner, Studi Associati SA, Lugano, Marek Jetmar, AMBIS College, Prague and Jaroslav Burian, Palacký University in Olomouc.

A special session City and Developer will be dedicated to public-private cooperation in co-investment of public infrastructure. The audience will learn about examples of cities where the principles of cooperation already exist and about the initiatives of the Czech Chamber of Architects in this area.

The conference is supported by CTU Prague grant SVK 46/22/F5.

### **The Conference Output**

Chosen contributions will be published in a conference proceedings (ISSN 2571-4228).

### **Support**

The conference is supported by Czech Technical University in Prague through SVK 46/22/F5 grant.

### **Supporting universities**

Czech University of Life Sciences Prague, Faculty of Environmental Sciences

Czech Technical University in Prague, Faculty of Architecture

Czech Technical University in Prague, Faculty of Civil Engineering

Prague University of Economics and Business, Faculty of Economics

Prague University of Economics and Business, Faculty of Finance and Accounting
